

## Product information

# 4CR-Industry 0451-375 Hardener/Thinner for synthetic resin paints

Page 1 / 1

Version 1 / February 2020

### Product description

Hardener and thinner component for paints which are based on synthetic resin. It is used to improve the drying process and to increase the gloss grade, especially at low temperatures.

### Technical specifications

Binder base: Polyisocyanate

Density DIN EN ISO 2811 (kg/l): 0,9 - 1,0

Solids content (% by weight): 13 - 14

Delivery viscosity DIN 53211 4 mm (in s): 11 - 13

### Storage

At least 2 years in unopened original container

### Processing tips

For professional use only.

Do not use for hot spraying.

Drying up to 80 °C possible.

This hardener reacts with humidity, therefore close tin immediately after use.

Avoid inhalation of spraying mist.

### Cleaning of tools

Clean tools immediately after use with Nitro-Thinner.
